Blacktown City

strategic location

easy place to do business

economic development

“at the centre of global Sydney Metro”

The stage is set at Blacktown City for high quality businesses looking to make a strategic decision about premier locations to locate, consolidate or expand business operations. Blacktown City's strategic advantages include:

- M2, M4 and the M7 Westlink (completed 2006) Motorway access
- 30 minutes from International air & sea port terminals
- Over 760 hectares of available industrial land

“home to large numbers of world leading businesses”

- Home to large numbers of world leading businesses
- Industry clusters in transport & logistics, advanced food, metal & electronic manufacturing, engineering & construction
- Industry supported by a broad range of talented tradespeople & university trained graduates

“a city committed to development excellence”

RECENT INITIATIVES INCLUDE:

- Development of the City's first economic development strategy in 2003
- Long term role in zoning & servicing of new industrial land
- Accessing grant funding to support business growth in the City
- Development of the Blacktown City Business Futures Forum & local industry capability register

For a full investment prospectus or further information & assistance contact Ben Artup, Blacktown City Council's Economic Development Officer. Ben can help you access State & Federal business expansion services & with making the development process as simple as possible.
