INTERNATIONAL CENTRE OF TRAINING EXCELLENCE
an elite facility for all
Blacktown City Council is developing the International Centre of Training Excellence (ICTE) as a world-leading multisport high performance, education, sports medicine and accelerated recovery facility.

The ICTE will be the centrepiece for the future of Blacktown International Sportspark and will cement Blacktown as the sporting capital of Western Sydney.

The $100 million ICTE is scheduled to open in 2021.

It will serve visiting international teams, our elite athletes, local sportspeople and the wider community.

All will benefit from top quality support including cutting edge training, physio and sports science research facilities.

The ICTE will recognise, nurture and develop athletic talent. It will provide sports science and medicine, education and rehabilitation to both sportspeople and others in need of recovery treatment.
The ICTE will provide the best sporting and research facilities where athletes, teams and members of the community can train, learn, develop and recover.

300,000 visitors are expected to visit the ICTE each year

How would the project be funded

Estimated cost $100 million

♦ For delivery of the ICTE facility.
♦ The anticipated net operating cost of the facility is $1.5 million per annum.

Proposed funding $100 million

♦ Proceeds from land developments $69 million.
♦ Internal borrowings from internally restricted funds $31 million.
Next steps

As part of the planning process a preliminary business case has been developed and approved by Council. The business case outlines all aspects of the project including the background into the project, priority of services and benefits for the community.

The community will have the opportunity to review the details and provide feedback.

Public consultation: 22 October to 19 November 2018

How to find out more

Come and visit the project team to say hello, get more information and give your feedback on this exciting project.
