History	The original policy was developed following Council trialling three dual fuel trucks in 2000. The policy was amended on 17.06.2009 to recognise the fact that this policy has been expanded to cover a wider range of plant and fleet environmental systems. On 17.05.2018 new categories of service were introduced.  <---Click on icon to display previous policy P000124  <---Click on icon to display previous policy P000124.1  <---Click on icon to display previous policy P000124.2  <---Click on icon to display previous policy P000124.3  <---Click on icon to display previous policy P000124.4  <---Click on icon to display previous policy P000124.5
