Nursery Volunteer Program

Calling all Green Thumbs!

Are you looking for volunteering opportunities that involve growing plants and general gardening activities?

Then the Nursery Volunteer Program could be for you!
A mid-week program (one day per week, 9am -1pm) is on offer that will provide opportunities for interested residents to assist with a range of nursery activities. Activities may include propagating plants from seeds or cuttings, assisting with the potting up of plants and general plant care activities. No previous experience is necessary and hands on training will be provided. Volunteers will gain valuable knowledge and experience by participating, including learning the names of many native and exotic plants and the methods for growing each species. The program is perfect for people who are interested in growing plants or those who are just looking for a social, mid-week activity.

To register your interest in the program, please visit Council’s volunteer page at http://apps.blacktown.nsw.gov.au/forms/volunteer.cfm and complete the ‘Volunteer Registration of Interest’ form, or if you do not have access to the internet please Council’s Volunteer Coordinator on 9839 6000.
